## Summary

Computer Science graduate and QA Analyst with experience in manual, API, and automated software testing within Agile environments. Skilled in Postman, SQL, Cypress, and JIRA, with an active interest in applying structured quality assurance and performance evaluation to AI models and intelligent systems.

## Experience

**Bidhee Pvt Ltd, Kathmandu, Nepal**
*Junior Quality Assurance Analyst* *Mar 2026 – Sep 2026*

- Executed structured manual test cases and functional testing for core HRMS and payroll software modules, ensuring workflow accuracy.
- Manually validated payment integration flows and transaction outcomes across custom web platforms.
- Conducted functional, regression, and API testing using Postman and Insomnia to verify RESTful endpoint behaviors, payloads, and responses.
- Performed manual and UI testing on Android mobile applications, validating end to end user workflows, responsiveness, and performance.
- Logged, tracked, and managed software defects with step-by-step reproduction details using JIRA.

**Bajra Technologies, Kathmandu, Nepal**
*Quality Assurance Senior Trainee* *Mar 2025 – Sep 2025*

- Designed and executed automated end to end web test suites using Cypress.
- Validated database integrity, data consistency, and dashboard outputs across PostgreSQL databases using SQL queries.
- Performed backend API validation using Postman to ensure seamless data flow across interconnected data platforms.
- Authored detailed test scenarios, test cases, and UAT documentation following standard testing methodologies.
- Participate in Agile sprint activities (stand-ups, sprint planning) and author structured test cases and test execution summary reports.

## Technical Skills

**Testing Types**: Functional, Non-Functional, Smoke, Sanity, Regression, API Testing, UI/Mobile (Android), UAT Support
**Tools & Frameworks**: Postman, Insomnia, Cypress, JIRA, Apache JMeter
**Databases & Languages**: SQL, PostgreSQL, MySQL, MongoDB, JavaScript, TypeScript, Python (basics)
**Platforms & Methodologies**: Agile/Scrum, Git/GitHub, Docker, Linux (Ubuntu)

## Education

**St. Lawrence College, Tribhuvan University, Kathmandu, Nepal**
*BSc in Computer Science and Information Technology* *Apr 2021 – Sep 2025*

- Final Grade: 71.83%

## Leadership

**Lions Club of Kathmandu**
*Charter Member* *2023 – Present*

- Coordinated blood donation programs, disaster response operations, and community environmental projects.
