Summary

Computer Science graduate with experience in software testing and data validation, seeking to pursue an MSc in Artificial Intelligence. Strong foundation in programming, data structures, and statistics, with a growing interest in machine learning and intelligent systems.

Education

St. Lawrence College, Tribhuvan University

Bachelor of Science in Computer Science and Information Technology

– Final Grade: 71.83%

Apr. 2021 — Sep. 2025

Kathmandu, Nepal

Core Coursework

- Statistics & Probability
- Linear Algebra
- Data Structures (DSA)
- Database Mgmt (DBMS)
- Artificial Intelligence
- Software Engineering
- Operating Systems
- Discrete Structures

Experience

Bajra Technologies

Quality Assurance Trainee

- Validated Superset dashboard outputs and database accuracy using PostgreSQL.
- Conducted API testing using Postman to check data consistency across systems.
- Designed and documented structured test cases for web based data platforms.
- Performed end to end automation testing using Cypress.

Mar. 2025 — Sep. 2025

Kathmandu, Nepal

Projects

Hostel Rental Management System | *MERN Stack* | [GitHub](#)

- Developed a full stack web application with role based authentication for admins, owners, and students.
- Designed database schemas and REST APIs to manage property booking logic.
- Ensured data consistency through system logic validation and backend debugging.

Jan. 2025

YouTube Clone | *React, REST APIs* | [Live Demo](#)

- Integrated external APIs for dynamic video content retrieval and search functionality.
- Implemented a responsive UI using a structured component based architecture.

Aug. 2024

Technical Skills

Languages: JavaScript, TypeScript, SQL, Basic Python, HTML/CSS

Data & Testing: Basic Data Analysis (Pandas, NumPy), PostgreSQL, MongoDB, Cypress, Postman

Tools & Platforms: Google Colab (Basics), Git/GitHub, Docker, Linux (Ubuntu), VS Code

Methodologies: SDLC/STLC, Bug Reporting, Data Validation

Leadership / Extracurricular

Lions Club of Kathmandu

Charter Member

- Coordinated blood donation programs and community health projects.
- Assisted in emergency disaster response and relief operations during regional floods.
- Led local environmental cleanup campaigns.

2023 — Present

Kathmandu, Nepal
